

Get funds faster with Interac e-Transfer Autodeposit

Autodeposit is an Interac e-Transfer feature that allows users to register to have incoming Interac e-Transfer funds deposited directly into their credit union account.

Benefits:

- Get funds deposited right into your account.
- No security questions or passwords required.
- Safe and easy way to secure your transaction, making it difficult for fraudster to intercept your messages.
- Autodeposit enjoys the same bank-grade security standard as Interac e-Transfer.

How to set up Interac e-Transfer Autodeposit?

1. Log into your online banking or mobile app.
2. Look for Autodeposit in the Interac e-Transfer section.
3. Register your email address or mobile number and link the account.
4. Click "Complete Registration" in the confirmation email.

Once you register you will receive a Autodeposit verification email or text message. Make sure you check your spam folder if you do not receive one.

Account Settings:

You can manage your Autodeposit whenever you want via your settings, by adding additional email accounts or mobile numbers, changing your email address or deactivating your Autodeposit.

Check with your participating credit union for further details or visit the Interac website.
